

Are non-human animals our friends or enemies? In this provocative book, Dinesh Wadiwel argues that our mainstay relationships with billions of animals are essentially hostile. *The War against Animals* asks us to interrogate this sustained violence across its intersubjective, institutional and epistemic dimensions. Drawing from Foucault, Spivak and Derrida, *The War against Animals* argues that our sovereign claim of superiority over other animals is founded on nothing else but violence. Through innovative readings of Locke and Marx, Dinesh Wadiwel argues that property in animals represents a bio-political conquest that aims to secure animals as the spoils of war. The goal for pro-animal advocacy must be to challenge this violent sovereignty and recognize animal resistance through forms of counter-conduct and truce.
