

Verdict for the Defense: Is Your Company a Target for Jackpot Justice? Fight Back with Defense Firewall Strategies from Rob Herrington. Every business day a group of America's wealthiest lawyers troll consumer complaint websites looking for their next multi-million dollar fee. These are plaintiffs class-action specialists who search out aggrieved consumers and file suit on their behalf and on behalf of thousands of others with similar claims. Thus launches the high-stakes game of Jackpot Justice where business leaders too often must settle even doubtful claims for millions due to long-shot risks of devastating verdicts. In Verdict for the Defense, author-attorney Rob Herrington tells company leaders how a poorly handled consumer dispute over a \$6 fee can become a \$500 million lawsuit and why American business leaders routinely accept expensive litigation as a cost of business. Rob Herrington advocates that companies must proactively go on the offense to limit risk and shares his Defense Firewall Strategies that may help block many mass actions and reduce risks. Learn how a handful of plaintiffs' attorneys hold corporate America hostage and get survival advice from Rob Herrington, a leading mass action defense lawyer who represents some of the country's most visible companies. "Rob Herrington is my kind of lawyer. He protects companies against lawsuits that are designed and intended to serve as little more than shakedowns. Verdict for the Defense is his manifesto." Norm Pattis, noted trial attorney and author of Taking Back the Courts.
